

The following table shows the results of the regression analysis for the dependent variable "Number of children in the household" (N = 1,000). The table is organized into three columns: "Variable", "Coefficient", and "Standard Error". The variables are listed in the first column, and the corresponding coefficients and standard errors are listed in the second and third columns, respectively. The table is divided into three sections by horizontal lines.

Variable	Coefficient	Standard Error
Intercept	1.50	0.10
Age	0.02	0.01
Gender	0.05	0.02
Marital Status	0.10	0.03
